

Instant Insights

Intelligence on your products and the universes where you compete, instantly.

IN BRIEF

Instant Insights is a dashboard view of your product line-up, with immediate line of sight into how your strategies rank, the dynamics of the universes in which you compete, allocator interest in your products and opportunities in each universe.

INSTANT VISIBILITY INTO

Performance relative to peers

Universe momentum, with percentage of managers beating the benchmark, percentage capturing new assets and overall net flows in the universe

The competitiveness of your fees

Consultant and investor interest in your strategies

The quantity of potential opportunities in each universe

Or customize the datapoints you want to see.
